Teaching children to read online

<https://poskladam.ru/18/> - Full implementation of the project at the request of the customer. Work included frontend, backend, and the preparation of training materials.

Technologies:

VUE, VUEX, VUE-resource, Quasar + Cordova, PHP, MySQL

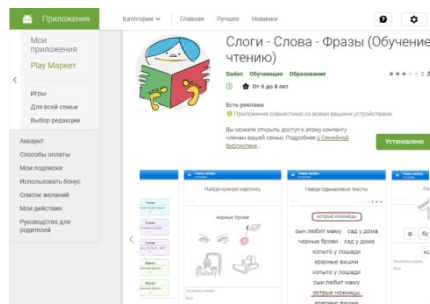

Project details:

It was necessary to create a database of letter combinations of consonants and vowels, voice words, find a catalog of words for preschoolers. From the obtained SPA it was required to make an Android application with a minimum of costs. For this purpose, the QUASAR - CORDOVA framework was used.

Backend is written by me in PHP, data is stored using MYSQL. PHP was written API for providing access to lessons, user registration through social networks.

Mobile version:

https://play.google.com/store/apps/details?id=ru.dadon.sklad_rus

City Guide (VUE +QUASAR +CORDOVA)

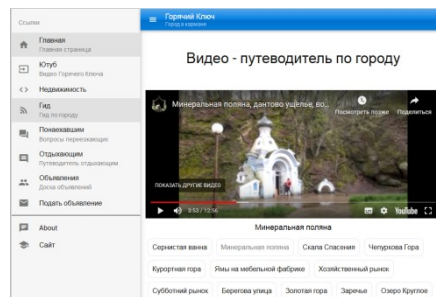

<https://play.google.com/store/apps/details?id=ru.psekups.first> - the application was implemented according to my own ideas about a guide to the city where I live.

Technologies:

VUE, VUEX, VUE-resource, Quasar + Cordova, vue-youtube-iframe-api, PHP, MySQL

Project details:

- Parse the XML file of Yandex.ru real estate. This task was done by a PHP handler that filtered data and generated JSON
- Parse the issuance of the Youtube.com channel and generate data for the presentation
- Form a simple bulletin board.

Simulator for memorizing Chinese characters

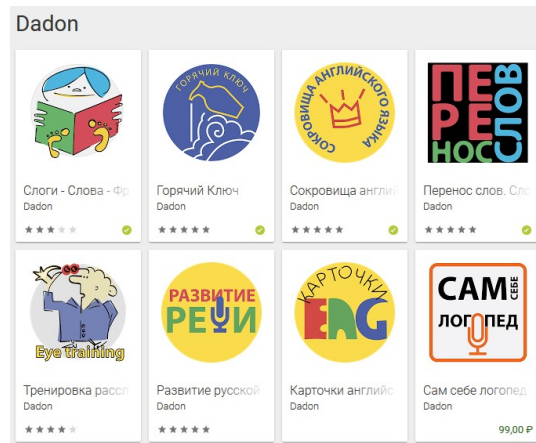

<http://poqitaikитай.ru/china/18/> A training designer has been created, using which it would be possible to create new training blocks. The project started with JQUERY and JS, but new components are added on VUE. One of the requirements of the customer is to make a mobile application, so VUE + QUASAR + CORDOVA technologies were chosen. The backend is written in PHP. Work with the customer is carried out through facebook messenger and through SKYPE when necessary.

<http://poqitaikитай.ru/china/> - JQUERY, PHP, MYSQL

Android Applications on VUE & QUASAR & CORDOVA

When there are no orders, I design my applications on VUE

<https://play.google.com/store/apps/developer?id=Dadon>
